

National Credit Union Youth Month

**Let's
Party...**

with Deposit Matching!

When a YA Account or a Custodial Account is opened in the month of April, we will match the \$25 opening requirement deposit.

We will also place your child's name into a special drawing at the end of the month every time an in-branch deposit is made into those accounts.*

National Credit Union Youth Month is celebrated every April, emphasizing the importance of financial literacy and fostering good saving habits among young people. In our current society, this knowledge is more vital than ever, and NIFEDCU is honored to assist our youth in developing these crucial skills. This month serves as a wonderful opportunity to lay the groundwork for a stable and prosperous future for the next generation.

What Youth Accounts Does NIFEDCU Offer?

Whether your child is a baby, tween, teen, or young adult, we have the accounts to help them succeed. The two (2) options available are YA Accounts and Custodial Accounts.

YA Accounts are for teens ages 13 to 18 and must be jointly opened with a parent/legal guardian. This account gives you the option to allow your child to have a debit card.

Custodial Accounts are available from birth to the age of 21. This account is managed solely by a Custodian (parent/legal guardian) for the benefit of the child under 21. Only the Custodian may preform transactions on this account. Once the child is 21, the Custodian typically transfers the account to the child. At that point it will become a traditional Savings Account.
